Ben's thoughts...

HABANERO STAR (810 Yarmouth) possibly just found her stamina tested a shade too much last time out over 1m3.5f so this drop back to 1m2f on Prime Conditions at her favourite track should suit her well. The Gay Kelleway yard have been a little quite in recent weeks but C5-C6 races at Yarmouth in June-August with runners that start at SP 12-1 or less have shown good profits for her runners... 22/85 | 26% S/R | +£78.06 - W&P 42/85 | 49% S/R... and I thought 7-1/8-1 looked generous enough for this one.
